

CALL FOR PAPERS

Abstract Registration Deadline

15 July 2022

By 10 and 11 November in Gran Canaria (Spain) will hold the 12th Annual Technical Sessions ENERMAR under the motto:

The sea and renewable energies: The contribution of the Naval and Maritime Engineering

The Working Group on Renewable Marine Energies (ENERMAR) belonging to AINE, Spanish Association of Naval Architects is pleased to encourage companies, organisms and individuals keen on the topic to take part in these sessions as speakers in one of the proposed theme panels.

These technical panels will be made up of 15-20-minute speeches and a Q&A wrap-up about the following themes related to the Marine and Ocean Renewable Energies:

- Floating offshore wind.
- Bottom-fixed offshore wind.
- Generation of marine energies: tidal energy, energy from currents, from waves and saline gradient.
- On-purpose ships and supporting vessels for the marine & ocean renewable energies.
- Plants and manufacturing processes for renewable energy offshore units.
- Auxiliary Naval and Maritime Industry: Contribution to the final added value.
- Ports and Maritime Logistics & Operation.
- Innovative systems for marine renewable energies' generation, storage or distribution.
- Aplicación de las energías renovables en la Ingeniería Naval
- Training activities in the field of Marine Renewable Energies
- Methodologies for validation of Marine Renewable Energies devices
- Digitalization applied to Marine Renewable Energies

12^{as} Jornadas Técnicas ENERMAR

El mar y las energías renovables:
La aportación de la Ingeniería Naval y Oceánica

2022 10 – 11 Noviembre
Gran Canaria

Abstracts may be presented in both Spanish and English, as well as the presentation during the Technical Sessions.

Abstracts must be presented following the template instructions: [HERE](#)

Interested in presenting a paper should send the abstract according to the format of the template before **15 July 2022** to enermar@ingenierosnavales.com, stating “**ENERMAR 2022**” and the paper’s title in the subject.

Due to the limited room for fitting all the candidacies into 2-day sessions, those authors not selected will be invited to present a poster in a dedicated space for the audience to review and comment with authors.

The authors of the selected papers and posters must register for the conference under the corresponding reduced rate.

Draft Calendar:

- **15 July:** Due date for reception of papers’ summaries.
- **26 July:** Selection of papers by the Technical Committee and notification of the selected participants.
- **15 September:** Final program’s closure.
- **20 October:** Due date for presentations’ delivery.
- **10-11 November:** ENERMAR Sessions in Gran Canaria.

1 June, 2022
